THANKSGIVING PROCLAMATION.

The President Appoints Thursday, November 28th.

By the President of the United States—A Proclamation:

The recurrence of that season at which it is the habit of our people to make devout and public confession of their constant dependence on Divine favor for all good gifts of life and happiness, and of public peace and prosperity, as exhibited in the record of the year, the abundant reasons for our gratitude and thanksgiving, the exuberant harvests, the productive mines, ample crops, of the staples of trade and manufactures which have enriched the country; the resources thus far furnished to our reviving industry and expanding commerce, and hastening the day when discord and distresses through the length and breadth of the land will, under the continued favor of Providence, have given way to confidence and energy and assured prosperity; peace with all nations has remained unbroken; domestic tranquility has prevailed, and the institutions of liberty and justice which the wisdom and virtue of our fathers established, remain the glory and the defense of their children. The general prevalence of the blessings of health throughout our wide land has made more conspicuous the sufferings and sorrows which the dark shadow of pestilence has cast on a portion of our people. This heavy affliction even the Divine Ruler has tempered to the suffering communities by the universal sympathy and succor which have flowed to their relief, and the whole nation may rejoice in the unity of spirit in our people by which they cheerfully share one another's burdens.

Now, therefore, I, Rutherford B. Hayes, President of the United States, do appoint Thursday, the 28th day of November next, as a day of National thanksgiving and prayer, and I earnestly recommend that, withdrawing themselves from secular cares and labors, the people of the United States do meet together on that day in their respective places of worship, there to give thanks and praise to Almighty God for His mercies, and to devoutedly beseech their continuance.

In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed. Done at the city of Washington, this 30th day of October, in the year of our Lord, one thousand eight hundred and seventy-eight, and the independence of the United States one hundred and third.

[SEAL.] R. B. HAYES.

By the President.
WM. M. EVARTS, Secretary of State.

THANKSGIVING PROCLAMATION.

By the Governor of Wisconsin.

A PROCLAMATION.

Another year of health, peace and prosperity has been vouchsafed unto the people of Wisconsin, mercifully reminding them to acknowledge in a befitting manner their gratitude to Almighty God and dependence upon him for the blessings of His paovidence:

Wherefore, in obedience to the custom of the country, now wisely sanctioned by law, and conforming to the recent proclamation of the President of the United States, in that behalf, I, WILLIAM E. SMITH, Governor of the State of Wisconsin, do hereby appoint

Thursday, the 28th day of November, instant, as a day of public thanksgiving and praise; and I recommend to all the people of Wisconsin, on that day, to show forth their gratitude, by liberal benefactions to the poor, by visits to the sick and to the afflicted, and by such religious and social festivities as shall comport with the occasion and best enable them to praise the Lord; to make known His deeds among the people and talk of all His wondrous works.

In testimony whereof, I have hereunto set my hand and caused the Great Seal of the State of Wisconsin to be affixed. Done at [SEAL.] the city of Madison, this seventh day of November, in the year of our Lord, one thousand eight hundred and seventy-eight.

By the Governor: WILLIAM E. SMITH.
HANS B. WARNER, Secretary of State.

RUBLEE AND THE WISCONSIN.

A few days ago the Evening Wisconsin printed an editorial headed "The Howe-Sawyer Combination," in which the charge was pretty directly made that in the Sixth District there was a sort of a bargain, or an understanding between Gabe Bouck, Senator Howe, and Philetus Sawyer, that the first named should be permitted to be re-elected to Congress on the condition that he with his friends would not use any active measures in defeating Republican candidates for the Legislature who were favorable for Howe first, and Sawyer second, for the United States Senate. It did appear to a good many, who closely watched the political movement in that District, that there was some foundation for the position taken by Evening Wisconsin. Inasmuch as Mr. Rublee has been reported to have had some editorial connection with the Evening Wisconsin, and inasmuch as Senator Howe is a warm personal friend of Mr. Rublee, it became necessary for him to write a card and absolve himself from all responsibility regarding the article which appeared to him to severely reflect upon both Howe and Sawyer. The card is published in the Evening Wisconsin of Friday, and is a column long, and sternly resents the imputation of that paper. Mr. Rublee warms up under the thought that his special friend, Howe, has been abused, and says that a charge that there was any combination of the sort "is a glaring, patent, and extraordinary falsehood." He believes that Senator Howe could not be guilty of such a corrupt bargain; and furthermore he regards it a sufficient evidence that he was not, that the Sixth District lost two members of the Assembly over last year, and also that Bouck's majority was considerably reduced, which is enough to make the story of the bargain between Howe, Sawyer, and Bouck, absolutely incredible. Again, the Evening Wisconsin is opposed to Senator Howe's re-election because he voted for the remonetization of silver, whereupon Mr. Rublee advises that paper "when it deals damnation round the land, let its thunderbolt strike all the guilty alike, and not be directed at a single head."

The editorial in the Evening Wisconsin on the "Combination" may have been ill-timed and unjust, but it expressed the sentiment of a large number of persons. That paper is rarely amiss in its criticism on the conduct of public men, though we could not agree with it opposing Senator Howe, or any body else, because he voted for the remonetization of silver. The Evening Wisconsin maintains a high position as an independent and honorable newspaper, but if it is wrong so far as regards Senator Howe and Mr. Sawyer, none can be gladder than we. We don't propose to make war upon any candidate for the United States Senate. The claims of the candidates are just, and the men who are to make a choice of a Senator have been elected by the people. We have faith in the wisdom of that body, and believe that it will select as a Senator a man who represents (1) the highest political morals in the State; and (2) the best ability in the Republican party.

The Illinois Legislature has a delicate question to settle—a choice between Senator Oglesby and General Logan for United States Senator. Both are good men and both are candidates which make the position of the Republicans one of peculiar delicacy.

THE SILVER DOLLAR.

The attitude of the banks in New York city regarding the silver dollar is one which will be deeply regretted by ninety-nine business men out of a hundred in the Northwest. No one can deny the greatness of their influence in resumption. They have the power to make it easy and certain, and they are vested with the means to make resumption difficult, and to greatly embarrass the action of the Treasury Department. Secretary Sherman sees this; and it would be untrue to say that he is not concerned about it. There are two policies entertained by those who favor resumption. One is adopted by the Clearing House Association, and the National Banks of New York city. They believe in a single standard of value, and that standard shall be gold. They favor resumption, but only resumption in gold. They are antagonized against the new silver dollar, and want it demonetized, its coinage stopped, and further, they have agreed not to receive it with gold and greenbacks for deposit. In short they will not recognize it as legal tender, and will have nothing to do with it, and any man who attemps to make the banks take it it as a legal tender, will not be permitted to do any more business at the banks. This is briefly the position of the New York city banks, and it is a position which is condemned by nearly the entire business men of the West. It is a spirit of arrogance and dictation not very unlike that manifested by the rebels in Congress. The Confederates assume to rule Congress, and the Clearing House Association and the banks of New York city propose to defy that body.

The other policy is to allow the silver dollar to work out its own salvation, and to make it serviceable in inaugurating resumption. It is a legal tender, and to make war against it will embarrass the Treasury. We have had enough of mischievous agitation of the money question and the quicker we resume, and place gold, silver, and greenbacks on the same level, the better for all classes. The people are disgusted with the currency war, and they want the matter dropped and resumption secured. But the New York bankers step in, and defy Congress and challenge the will of the people, and demand as a price of their co-operation in resumption that the new silver dollar shall remain in the vaults of the Treasury, and that it shall play no part in the great work of the resumption of specie payments. This audacity on the part of the money-lenders of New York can result in no good to them, but it may make mischief in the Department of the Treasury by interfering with Sherman's resumption plan. The popular desire is that the resumption act and the silver bill shall be allowed to work out their own legitimate results, and that the goldites of New York or any other place, shall not attempt to obstruct specie resumption.

The Milwaukee News makes mention of a new railway extension in this State from Sparta to Viroqua, a distance of 42 miles. It says: The people along the proposed new railroad line have subscribed $50,000 in aid of the enterprise. The Chicago, Milwaukee and St. Paul Company has undertaken to complete the work. The Company intends to put 500 men at work grading the line next Monday, and expects to have twelve miles completed south of Sparta before the 1st of January. The balance of the line will be built in the spring. The line will extend from Sparta, in Monroe county, to Viroqua, in Vernon county, in a nearly southerly direction. The line will pass Leon, Melvina and Mount Pisgah, in Monroe county, and Coon Prairie and several small villages in Vernon county. Leon is seven miles from Sparta, Melvina fifteen miles, Mount Pisgah twenty-two miles, and Coon Prairie is situated about mid-way between the latter point and Viroqua. It is the intention of the company to lay the iron through Leon to Melvina before the close of the season, and to complete the remaining distance of twenty miles early in the spring.

Senator Conkling is now trying to place himself on friendly terms with the Administration for the purpose, says a Washington dispatch, of preparing himself for a candidate in 1880. The South may force the Republicans to take up Grant, and in that case Conkling will be satisfied, but he will fight Blaine to the bitter end for the nomination. The recent victory in New York is what is called a Conkling victory, and Conkling regards it such himself, and as New York will deside the result in 1880, and he is about the only man who is sure of carrying it, except Grant, he will strain every nerve to win the nomination.

Governor Smith has pardoned Herbert C. Damon, who was convicted in the Municipal Court of Milwaukee in May, 1877, of forgery. He was sentenced to a term of two years and eight months in the State Prison, and on account of his rapidly declining health he was pardoned.

On the 30th day of last June, according to the United States Official Register, there were 39,258 postmasters in this country. What an army of self-sacrificing citizens.

The official vote of the Third Congressional District, has been received at Madison, and Hazelton's majority is 120. The total vote of the District is 22,830.

On the 23d of this month the Government of the United States will pay England $5,500,000 for $125,000 worth of mackerel.

Special to the Gazette.

CHICAGO, Ill., Nov. 16.—The official vote of Illinois at the late election is as follows: John C. Smith, Republican, State Treasurer, plurality, 36,417; J. P. Slades, Republican, Superintendent of Public Instruction, plurality, 33,951.

TELEGRAPH LINE.

Special to the Gazette.

NEW YORK, Nov. 16—The American Exchange announces to-day a project of Jay Gould and other capitalists to build a telegraph line in opposition to the Western Union. All the railways except the New York Central will become interested in the enterprise. The capital will be ten million dollars. The line will operate in all parts of the country in twelve months. Telegraph officials say it is a stock jobbing scheme.

FOREIGN.

An Important Speech from the Austrian Minister of State—Archbishop Cullen's Successor.

Special to the Gazette.

PESTH, Nov. 16.—Primier Tisza, while speaking in the Diet, to-day, declared that the policy of Austria and Hungary was to prevent Turkey from becoming a prey to Russia. He expressed a firm hope that the Berlin Treaty would be punctually observed. If, however, any power should resist, the execution of that treaty, Austria, who had been able to harmonize her interests with those of Europe, would not stand alone in the fight might ensue.

DUBLIN, Nov. 16.—The Cathedral chapter and parish priests of this diocese, will meet on the 28th inst., to select three names from which the Pope may choose a successor to the late Archbishop Cullen.

PARIS, Nov. 16—The French troops at New Caledonia have been attacked, and defeated the insurgent natives. The latter suffered a heavy loss.

CONFIRMED.

Even After Many Votes Are Thrown Out, Martin Has a Majority in North Carolina.

NORFOLK, Va., Nov. 15—The report that Yeates, Democrat, is elected to Congress by six majority from the First North Carolina District, is unfounded. The returns, as made by the canvassers of the several counties, show a majority of 54 for Martin, Republican, and this result is obtained after the canvassers had thrown out 418 votes cast for Martin as irregular.

STATE PAPERS.

The President's Message and Reports of Heads of Departments.

WASHINGTON, Nov. 15.—The President and Cabinet are engaged now almost every day in joint conference over the recommendations that shall be made to Congress in the various department reports and the President's message. The message will contain a full history of the President's Southern Policy, and will discuss in extenso the frauds and intimidations practiced in the South at the recent elections. Its tone, and the announcement of the President's opinion and intention in this regard, will be very gratifying to the Radical Republican element of the country, who will find him in full sympathy with themselves. The message will be otherwise important, as will be the report of Secretary Sherman in its treatment of the financial question and the methods of bringing about the resumption of specie payments, as provided by law, on the 1st of January next, and the maintenance of the commercial prosperity which both the President and Secretary Sherman believe to have begun. The use of silver money will be discussed at length, and Secretary Sherman will suggest a method for maintaining the value of gold, silver, and the paper currency of the government at par. The President will deal at length, too, with the fisheries award, which will receive most of the attention of the Secretary of State in his annual report. The Secretary of War will ask Congress to reimburse the army for supplies furnished the yellow fever sufferers, which aggregate nearly $75,000.

MADMAN KILLED.

Desperate Struggle with a Madman Near Wrightstown—The Crazy Man Killed.

GREEN BAY, Wis., Nov. 15—Last evening at 5 o'clock Deputy Sheriff Subelt, of this county, started on a freight train to convey a man named John Maloney, adjudged insane, to the asylum at Oshkosh. When about four miles north of Wrightstown, Maloney jumped from the train. The madman proceeded to the house of Mr. Liska, a German farmer, entered, assaulted Liska's wife knocked her down, dragged her out doors, and was choking her, when her husband went at him with a club. At this juncture Liska was reinforced by his two sons, and then followed a desperate struggle, the mad-man proving himself a match for the entire family. All this time they supposed he was a tramp, not knowing he was insane. Finally the madman got one of the sons down and was about to finish him, when the brother dealt him a blow on the head with a rail, killing him instantly. Shortly after the Deputy Sheriff arrived on the spot and identified the man. An inquest was held at the village of Wrightown this afternoon and a verdict rendered in accordance with the foregoing facts. Maloney was a well-to-do farmer, residing in the town of Morrison, this county, insanity having come on during the past week or so.

THE WINNEBAGOS.

The Head Chief of the Wisconsin Winnebagos.

PITTSBURG, Pa., Nov. 15—The Head-Chief of the Winnebago tribe of Indians in Wisconsin, arrived in Pittsburg this morning, en route to Baltimore, to have his eyes operated on, he being almost totally blind. He had to be led into the City Hall, where he desired to meet some of the officials. He is a very intelligent Indian, and speaks the English language almost perfectly. He says he was robbed in Chicago of about $200 and is now entirely penniless. In his pocket he has documents which prove his identity and which show that, after the decease of the former Chief of the Winnebagos, he was chosen to succeed him because of his educational attainments. He is a young man, perhaps 30 years of age, and has been in his present state of blindness for nine years. He was furnished transportation to Baltimore, and went on his way rejoicing.

DE LA MATYR.

Programme of the Indiana National Congressman.

INDIANAPOLIS, Ind., Nov. 14—The Rey. Dr. De La Matyr, National Congressman-elect, who has just returned from the Eastern campaign, in an interview published here to-day, gave it as his opinion that the Nationals will hold the balance of power in the next Congress, and in the that event they should stand together, wield their power as a unit, and demand an uncompromising greenback man for Speaker, and a fair proportion of the appointments and patronage of the House for the National party. He also recommends a similar policy in the Legislature of Indiana.

PARDONED.

Governor Smith Grants a Pardon to a Milwaukee Forger.

MADISON, Nov. 15.—The Covernor granted a pardon to-day to Herbert C. Damon, who was convicted before the Municipal Court of Milwaukee, May 30, 1877, for forgery, and sentenced to State Prison for two years and eight months. The pardon was granted because of the prisoner's ill-health. The Prison Physician reported that the further confinement of Damon in his present physical condition would prove fatal, and it would be an act of humanity to release him. All of the persons who had sustained damage through Damon's acts, except one, united in asking for his release on this ground.

Ease Attainable by the Rheumatic.

Yes, although they may despair of relief, it is attainable by rheumatic sufferers, for there is a remedy which carries off, by means of increased activity of the kidneys—important channels for blood purification—the acrid element to which pathologists the most eminent attribute the painful symptoms—a theory completely borne out by urinary analysis. The name of this grand depurent is Hostetter's Bitters, a preparation likewise celebrated as a remedy for constipation, which causes contamination of the blood with the bile—and a certain means of relief in dyspepsia, fever and ague, and nervous ailments. It is, perhaps, the finest tonic extant, and is highly recommended as a medicinal stimulant by distinguished physicians and analysts, who pronounce it to be eminently pure and very beneficial. The press also endorses it. nov13deodw1w

BELCHING VESUVIUS.

One of the Grandest Sights Ever Seen by Mortal Eye.

The actual crater is placed almost in an amphitheatre, three-fourths of which are encased, while one-fourth is open. The enclosing walls rise above the bed of the crater from 250 or more feet in some parts, apperently of sulphur. The diameter judging by the eye, from one side to the other, is about 300 yards, and the whole of this area is filled with lava of fire, but crusted on the surface with a skin some inches deep of lava that has been chilled. All who have crossed the Mer de Glace at Chamouni are aware of the character of its formation; the deep, intensely blue tints of its crevasses, the huge boulders of ice, the uncertain and irregular character of the blocks, and the fantastic shapes assumed. Imagine just the same formation, but substitute heat for cold, intense fiery red color for the blue, and the appearance of the crater may be realized. The surface of the lava blocks is black, contorted in myriads of forms, hot, rough, and somewhat brittle, and lying more or less at one level. Looking between the cracks or down the "crevasses," however, the glowing fires a few inches below our feet, and in blocks wherein we were standing, were seen. When the mouth of the volcano showed signs of movement ten months since, it was not raised much above the rest of the bed. Its ten months' activity however, has enabled it to raise a cone almost in the center of the crater, at least a hundred feet in height, very wide at the base, converging at the summit like a sugar loaf, but with the summit of the loaf removed.

With a pulsation as regular and as marked as that of the piston of a steam engine in full motion, did the huge mountain carry on its works, so that now we are clearly able to understand what was meant by "every pulsation of the volcano being registered at the observatory."

Clouds of smoke and fumes were issuing from the summit of the cone—now densely dark, as if a fresh supply of coal had been heaped on the fire; then intensely light, if the engine were blowing off its steam; then most beautifully and delicately tinted with the tenderest rose-pink, as if an artist were testing how best to combine the loveliest tints of his art; then a pale salmon a little while, and the as if five thousand torpedoes were simultaneously exploded. The huge mountain seemed to heave, and forth from its mouth issued immense quantities of molten lava, shot scores of feet high up into the air—apparently at the mouth all in one body, but there separating into millions of pieces, great and small, all glowing with the most intense red heat that can possibly be seen. With a powerful opera glass we silently watched the visible operations of the volcano. Each piece as it ascended into the air was separate; no piece was on fire and at red heat though, but, mostly the lava emitted fell back again into the bosom of the heaving mass but with every emission quantities, large or small, fell on the outside of the mouth, and thus we saw readily how the cone had gradually but continuously increased in size and height. Every now and then a huge mass would drop outside, and then would be heard an immense crash, followed by vast quantities of lava rolling down the sides of the cone. As we stood watching, at intervals there seemed to be the firing of ten thousand guns of mightier calibre than Krupp's, and we soon found that this was the precursor of a great display. Up rose, possibly one hundred feet above the cone, an immense mass spreading in the shape of a lady's fan, and presenting one of the most magnificent sights the eye of a man can ever see. And this upheaval was not a thing for which we had to wait till our patience was exhausted, and to wonder if it would be repeated or not, but was continuous and incessant, and almost seemed as if every renewed explosion were grander than its precursor, or as indicating a trial of actual strength prior to the great event proposed to be completed.

As we descended to the crater the rain had ceased; while there it again fell for a time heavily; then the whole surface seemed "frizzling, and hissing and steaming" as the two bodies came into contact; the thunder overhead was pealing like the roar of fifty parks of artillery in concert, and the lightning dashed with intense vividness; then the rain and tunder and lightning ceased, and there was a perfect calm, nothing to be heard beyond the "machinery" of the mountain in full vigor and "steam up;" then the sunlight lightening briefly the whole scene, deepening impressions that time can never erase. As the day was drawing on it at last became necessary to think of returning to Naples. With much effort and the aid of our helper we again got out of the crater to the summit, but our descent, was to be by another way from that by which we ascended. It was down the side of the mountain, at a far more acute angle than that now proposed for the roof of St. Alban's abbey, but being of loose, friable materials similar to those we have previously described, there was little danger of rolling to the bottom. Stepping out bravely, and making long strides, with the foot and leg half way up plunging into the mass at every step, our American friends made the descent of the outer cone in nine minutes; we traversed it more leisurely, and took from twelve to fifteen. The Hermitage was soon reached, and at once taking carriage we started for the hotel.

Head, nerves, kidneys, bladder, womb, and blood affections of the urinary organs, gravel, scrofula, rheumatism, catarrh, asthma, bronchitis, dyspepsia, &c.
Dr. Price's reputation has been acquired by candid, honest dealing and years of successful practice.
My practice not one of experiment, but founded on the laws of Nature, with years of experience and evidence to sustain it, does not tear down, make sick to make well; no harsh treatment, no trifling, no flattering. We know the cause and the remedy needed; no guess work, but knowledge gained by years of experience in the treatment of Chronic diseases exclusively; no encouragement without a prospect. Candid in our opinions, reasonable in our charges, claim not to know everything, or cure everybody, but do lay claim to reason and common sense. We invite the sick, no matter what their ailment, to call and investigate before they abandon hope, make interrogations and decide for yourselves; it will cost nothing as consultation is free. Visits made regularly.
DR. V. CLARENCE PRICE
Can be consulted at JANESVILLE, MYERS HOUSE, Saturday and Sunday, the 14th and 15th of December, 1878.
Patients will address all letters to Dr. V. Clarence Price, Waukegan, Ill., with stamp.

By virtue and in pursuance of a judgment of foreclosure and sale entered in the above entitled action, in the Circuit Court for Rock county, on the 18th day of December, A D, 1877, in favor of the above named plaintiff and against the above named defendants, I shall offer for sale and sell to the highest bidder, at the front door of the post office, in the city of Janesville, in said Rock county,

On Thursday, December, 19th, A D, 1878,

at ten o'clock in the forenoon of that day, the following described premises lying and being in the city of Janesville, in said county of Rock and State of Wisconsin, and distinguished as follows to-wit: As a parcel of land having forty-four [44] feet front on Franklin street, and being of the uniform width of forty-four [44] feet, and being of the depth of one hundred and thirty-two and one-half feet, [132½] and extending from Franklin street to a parcel of land marked on Church and Williams' subdivision of Smith, Bailey & Stone's addition to Janesville, as recorded in the office of the Register of Deeds of Rock county, Wisconsin, on the 27th day of May 1870, as "open area." Said parcel of land so conveyed or intended to be conveyed is bounded on the north by land marked on said plat "W Henderson," and on the south by an alley ten [10] feet in width, extending from Franklin street to the said "open area." Also the right of way over said alley in common with said party of the first part in a deed executed by said plaintiff, Randall Williams and wife, to said defendant, S A Baldwin, as set forth in said deed, or so much thereof as may be sufficient to satisfy said judgment and interest and costs of sale as may be sold separately without material injury to the parties in interest.—Dated Oct. 30, 1878.

FARM NOTES.

A crop of volunteer oats in Gaudalupe county, Texas, thrashed out ninety bushels to the acre.

During the last four years the farming interest has extended itself over 22,285,000 acres of land in the United States. This is indicative of genuine national prosperity.

An honest farmer sent some handsome game and black Spanish fowls to the Kingstown (Ont.) exhibition. The judges washed the birds and it came out that the former were painted and the latter had had their legs blackleaded.

A New England agricultural editor is exercised over the question, "Shall hogs be killed in the old or new of the moon?" Suppose some one kills one side of the shoat in the old, and the other side in the new of the moon, and decide the question

Upon the authority of the North British Agriculturist it is stated that the Great Eastern steamship, which has been lying idle so long, is to be fitted out at Milford Haven as a cattle boat, to run between Texas and London. It is estimated she will carry 2,200 head of cattle and 3,600 head of sheep.

Mr. D. N. Kern, of Pennsylvania, tells the Practical Farmer that twenty-four whole potatoes planted in as many hills, with a handful of bran in each, gave a yield of three pecks, and the same number right alongside of them, but without bran, yielded only half a bushel.

Mr. N. R. French, the cranberry statistician, writes from New York to the Bricksburg Times and Journal that if the report proves true that a recent frost destroyed nearly half of the Wisconsin crop, it will carry the price of the fruit very high. He adds that he has "sold apples continually about twenty-five years," and never knew them to be so cheap as they are this fall.

In relation to the cheese market East, and the stocks on hand, the Montreal Witness says: "Never in the history of the trade were so large stocks in sight. Two hundred thousand boxes in Liverpool, 100,000 in London, 100,000 in Bristol, Glasgow, and other seaport towns, 275,000 in New York, and 25,000 on Montreal, sum up the immense total of 900,000 boxes; and this, without taking into calculation fully 150,000 boxes in farmers' hands west of Toronto, and a similar amount east of Toronto, with immense stocks in the States, which the New Yorkers declare cannot be correctly estimated within 250,000 boxes. With these figures before us how can there be any life in the cheese trade? The only wonder is that farmers so persistently hold on to their stock and ask such prices."

Corn as Fuel.

The American Agricultural says: "Some journals whose conductors know very little about corn-growing and other things in the West, make their annual outcry in regard to the extensive consumption of corn for fuel, which they consider a great and inexcusable waste. Suppose the Minnesota or Nebraska farmers were to sell two tons of corn for $6, and buy a half ton of coal for the money, and the corn was at once taken to a distillery and turned into whisky, would this be any better? The farmer would probably have to make two journeys of ten to twenty miles each with his loads, and be out of pocket at least $6 by his trade. The fact is, corn is an excellent fuel, and, although it may seem at first sight to be wrong to burn up an article of food, yet it is but a mere sentiment which overlooks the fact, that to warm one's self by a fire, and to do the same by the cousumption of food, are in the end precisely similar in effect. If more warmth can be procured by consuming in a stove a dollar's worth of corn than a dollar's worth of coal, it is a legitimate use of the corn."

The Horse in the Fall.

The Rural New Yorker has the following paragraph, as full of humanity as practical wisdom:

"Farm horses in the fall are often ungratefully neglected. Their hard toil in helping with the heavy work of the season once over, when only odd jobs await them it is too frequent the custom to dock them of their grain, and allow them to shift for themselves on the pastures, often without needed shelter from the bleak wind and early frosts of autumn nights. After feeding awhile the poor animals get chilled and run about in the dark in search of warmth which they often find only at the cost of a fall or stumble, resulting often in a sprain or a cut that injures or disfigures them for life. Then when warm and tired they lie down to rest; what wonder if they rise up stiff, spiritless, and not rarely suffering from a severe cold after their heated blood and relaxed sinews have been exposed to the blasts and frosts of a chilly night! When the days are not stormy it is well enough to let horses run in the pasture, but every autumn night should find them comfortably bedded and fed in the stable. Ingratitude to our fellow men is justly considered an odious vice, but is there not often a strong taint of it also in the treatment of these noble animals, to whose faithful help in all kinds of drudgery farmers are deeply indebted for full barns and comfortable homes?"

Hogs and Hog Products.

Prairie Farmer.

With the large amount of hog products on hand in this country and in Europe; with an aggregate production of meats and lard for the year approximating 1,970,000,000 pounds, and the foreign exports during this period about 980,000,000 pounds, compared with a total production of 1,316,000,000 pounds of meat and lard the previous year, and exports of 750,000,000 pounds; with fully 60,000,000 pounds more hog products on hand this year than last; with the immense corn crop estimated at 1,300,000,000 bushels, and with probably 10,000,000 hogs to market the coming seson, it would seem that we may look for lower prices even than last year for pork. One reason of this yearly increase in the number of hogs marketed is the ease which swine can be raised and fattened. Even the constantly increasing disability from contagious and epidemic diseases, superinduced undoubtedly in a great degree by want of proper care and feeding, even this has failed to decrease the production; but in spite of this, we see largely increased accessions yearly to our hog receipts, until the estimated number for this year aggregates the sum total stated. We suppose this overproduction will cure itself, as other over productions do, by carrying the market below a paying point. It would seem to have been reached now with live hogs in some of our interior markets ranging from $1 90 to $2 15 per 100 pounds. Yet, low as is the price, it is relatively better than corn in the same neighborhood. The real remedy, we think, is in a more diversified agriculture.

Feeding Roots to Stock.

The constant and long continued feeding of dry fodder to stock often produces constipation and a general debility of the digestive organs, followed by diseases common to domestic animals; and the prevalence of such diseases during the winter months among cattle fed wholly upon dry food is one of the strongest arguments that could be offered in favor of a mixed diet of roots and dry fodder. Sudden changes from soft succulent food to dry, or the reverse, are also injurious to the digestive organs; and cattle taken in from the pasture should receive rations of roots for a few weeks if no longer, or until they become accustomed by gradual diminution of the green food to live upon the dry alone. The same course should be pursued in the spring, by supplying some kind of green or soft food for several weeks before turning out to pasture. The better system is to have roots enough to give rations to them daily throughout the entire winter, feeding more freely to cows giving milk than to those that are dry. Sheep may be wintered almost entirely on roots and straw, and come out in the spring healthy and fat; but a little care is sometimes necessary in feeding turnips, for if given too freely to ewes with lamb, the large amount of water, in this root will sometimes produce scours, and even cause an abortion.

The quantity of roots to be fed daily to stock must vary in accordance with their nutritive properties. For instance, the amount of nutritive matter in 1,000 pounds of the common white turnip is only about forty-two pounds, or a little over four per cent. In the Swedish turnip it is about sixty four, while in the mangel wurzel beet it is 130, according to an analysis by Sir Humphry Davy. The sugar beet contains considerably more nutritive matter than the mangel, but the yield per acre is somewhat less; consequently what is gained in quality is lost in quantity. Carrots and parsnips are still more abundant in nutritive properties, but more expensive, as they require richer soil and greater care in cultivation; but being worth more for feeding than the larger kinds, they may be considered equally profitable to the farmer. Turnips are the easiest to raise, and the least in value of all the ordinary roots generally cultivated upon the farm; but as they are far better than no roots, we cannot urge too strongly their cultivation to farmers who think they have little time to devote to the production of such crops. —*New York Sun.*

MISCELLANEOUS.

CATARRH

THE EYE, EAR and THROAT

Successfully Treated with

SANFORD'S RADICAL CURE.

SUCCESS is the test of merit, and success in the treatment of Catarrhal Affections, after so many miserable failures, means undoubted specific curative properties in the remedy used. Does SANFORD'S RADICAL CURE for Catarrh possess such properties? The evidence, in the shape of unsolicited testimonials from the most respectable people in all stations of life, must be conclusive on this point. Never, we believe, in the history of popular medicines has such valuable testimony been offered, freely offered, in favor of any remedy than that in the possession of the proprietors of SANFORD'S RADICAL CURE. And valuable as it is, it does not represent a thousandth part of the recommendations which are to-day offered by friends to friends in its favor. People of wealth and refinement in all parts of the country daily admit its superiority over any method of cure known to the regular medical profession, but shun the publicity incidental to a published statement. Hence the testimonials in our possession represent but a small part of those withheld for the reason mentioned. The following unsolicited testimonial from HENRY WELLS, Esq., of Wells, Fargo & Co.'s Express, is an outspoken indorsement of which we are justly proud.

INVALUABLE.

Messrs. WEEKS & POTTER, Wholesale Druggists, Boston, Mass.: *Gentlemen*,—I have for some months felt it a duty that I owe to suffering humanity to write you, stating the great benefit that I have derived from the use of SANFORD'S RADICAL CURE FOR CATARRH. For more than 20 years I have been afflicted with this very troublesome complaint. I have tried all the remedies that I could find, but without material or permanent benefit. Last fall the disease had arrived at that state that I must have relief or die. The entire membranous system had become so inflamed, and the stomach so disordered, that it was a doubtful matter whether I could go to the Pacific coast, or if I did go whether I should live to come back or not. I saw an advertisement of this medicine, and although being very incredulous about specifics or nostrums of any kind, yet in sheer desperation I tried this, and was at once benefited by it. The changes of climate, a chronic disease of the liver, and my age—over 70—may prevent my entire restoration, but the benefit I derive from its daily use is to me *invaluable*, and I am hoping to be completely cured, and at last arrive at a respectable old age.

If this statement of my case can be of any service to those afflicted as I have been, and enable you to bring this remedy into more general use, especially on the Pacific coast (where it is much needed), my object in writing this note will be obtained.

Very truly yours, HENRY WELLS,
AURORA, N. Y., June, 1876. of Wells, Fargo & Co.

THE GAZETTE.

SATURDAY, NOVEMBER 16, 1878.

CITY AND COUNTY.

BRIEFLETS.

—Water works!

—Go to church.

—Moist Saturday.

—Nothing sensational in the police court to-day.

—There will be plenty of work for the string musicians next week.

—Nature's sprinkler commenced operations about five o'clock this morning.

—Frank Bowes, a clerk in Nash's grocery, is laid up with a sprained knee.

—Burr Robbins is making some extensive improvements on his residence at Spring Brook.

—The Catholic Band party last evening, at Young America Hall, was well attended and all enjoyed a pleasant evening.

—Mrs. Joseph Baker, mother of Captain C. W. Baker, is dangerously ill, at the residence of Philip Baker in the Third ward.

—Rev. Jenk Ll. Jones, of All Souls Church, preaches in the Assembly chamber at Madison, Sunday morning and evening.

—St. Mary's Choir will give a musical entertainment at Lappin's hall, next Wednesday, to be followed by a dance in Apollo hall.

—Rock River Encampment No. 3, I. O. O. F. and America Lodge No. 24, Daughter of Rebecca, will give a social hop next Friday evening.

—Prof. Severance will hold his dancing school on Thursday evening next, instead of Wednesday, owing to to the previous engagement of the hall.

—The junior Aldermen, who compose half of the Common Council, will meet at the City Hall, this evening, to consider the repairs of Milwaukee street bridge.

—The Circuit Court jury was discharged last evening until Monday morning, when the civil cases will be taken up. The case of Whitford against Goodrich has been set down for that day.

—There will be a congregational song service this evening at 7:30 o'clock, at the First M. E. church, led by Prof. Follansbee. The new Methodist Hymnal will be used. All members of the congregation are invited.

—After the plows and scrapers have been housed for the winter, Day's gang should be employed for a time with sledge hammers, driving in loose spikes protruding from many of our side walks—it would save many harsh words, you know.

—Mr. J. L. Ford, at his establishment on the corner of West Milwaukee and River streets, has a large and varied assortment of foreign and domestic cloths and suitings, genst' furnishing goods, etc. Ford understands well the wants of his many customers, sells at bottom prices, avoids all deceptions, and invariably *suits* the people, which accounts for his large and increasing business.

—Engineer A. A. Dresser of Washington engine, has put up a line of wire from the west side engine house to his residence, and will soon have a fire alarm connection with the engine house. In the course of a few days the members of Engine Company No. 2 will extend their wire down Main street in the Third ward, and perhaps further on. The connecting of the two houses by telegraph still hangs fire in the Council.

—Our merchants are preparing for the holiday trade on an extensive scale. Jewelry and bookstores are becoming special places of attraction. We notice that Messrs. James Sutherland & Sons are daily receiving choice goods for the holiday trade. In the line of fresh books, elegant and valuable pictures, rare illustrated works and other articles, their present assortment equals anything yet seen in Janesville. Their store is an art gallery, and their shelves and counters are loaded with goods, attract deep attention, and commend unqualified praise.

ODD FELLOWS INSURANCE.

The ninth annual report of the Wisconsin Odd Fellows Mutual Life Insurance Company for 1878, has been made, and contains facts which cannot fail to be of interest and value to the large number of the fraternity in this city. The department of insurance has proved a blessing to the order. It was started about nine years ago with a small number. The feature was a new one, and many had doubts as to whether that plan of life insurance would be successful. It soon became popular, however, and the present report shows that there are 5,757 members of the various classes. Since its organization, 154 members have died, and 218 assessments have been made, while the amount paid to the families of deceased members is $193,-776. The average cost per member per annum on $1,000 is $7.75, which is remarkably low. The members of the insurance department of the order who have died in Janesville, since it was organized, are J. D. Brooks, whose family received $1,011; E. Doty, $1,195; P. F. Cutts, $2,000; and A. A. Clark, $2,839.

The Secretary, J. W. Ostrander, in the report says of the success of the company:

The success of the Wisconsin Odd Fellows' Mutual Life Insurance Company is every year becoming more obviously an established and irreversable fact. Notwithstanding the yet unlifted incubus of the most disastrous financial depression that ever fell upon the business interests of the country, the addition to our membership for the year amounts to 877. Nor, under the circumstances, ought the number of losses, 223 in all, to be accounted any disparagement. Most of them would have been expected and would doubtless have taken place in the most prosperous times. Expulsions, suspensions and withdrawals from the Order account for a majority of them, while a small part of them are undoubtedly the unavoidable result of pecuniary ability to meet the assessments in time to prevent temporary forfeiture of membership. But deducting the total losses and deaths, amounting to 273, from 877, the number of new members received during the year, and there will still remain a clear gain of 604 members. This vaild increase of membership which exceeds somewhat that of the preceding year, clearly indicates firm and unwavering confidence in the safety and excellence of our system of relief insurance.

APPLETONS' JOURNAL FOR 1879.

Illustrations will hereafter be excluded from Appletons' Journal, it being the purpose of the proprietors to devote the entire space to papers of a high order of literary excellence, by writers of acknowledged standing. It is the growing habit of the leading minds in all countries to contribute their best intellectual work to the magazines and reviews; and, in order that Appletons' Journal may adequately reflect the intellectual activity of the time thus expressed, it will admit to its pages a selection of the more noteworthy critical, speculative, and progressive papers that come from the pens of these writers. Fiction will still occupy a place in the Journal, but a less prominent one; and, while purely discriptive papers will appear, they will largely give place to articles bearing upon literary and art topics, to discussions of social and political progress, to papers addressed distinctly to the intellectual tastes of the public, or devoted to subjects in which the public welfare of public culture is concerned. The December number has the following table of contents: The American at Work; Unanswered; A German Town and Castle; Imperfection; The High Steeple of St. Chrysostom's; Old New York; The Great French Tribune; Apartment-Houses; In the Dusk; Carrying a Paint-Box; Love's Young Dream; Otsego Leaves; A Floating City of the Atlantic; Mrs. MacGregor; The Greatest Man in the World; Editor's Table; Books of the Day.

Terms of Appletons' Journal—Three dollars per annum, in advance, postage prepaid by the publishers, to all subscribers in the United States or Canada; or twenty-five cents per number. A club of four yearly subscriptions will entitle the sender to an extra subscription gratis; that is five copies will be sent one year for twelve dollars. Appletons' Journal and the Popular Science Monthly, for one year, for seven dollars, postage prepaid (full price, eight dollars.)

The volume begins January and July of each year. Subscriptions received for any length of time.

D. APPLETON & Co.,
Publishers, 549 & 551 Broadway, N. Y.

THE ILLUSTRATED CHRISTIAN WEEKLY.

The Illustrated Christian Weekly is the only highly illustrated religious undenominational weekly paper in the United States. It is pure, cheap, beautiful, instructive, morally stimulating, and spiritually helpful.

It contains during the year above 400 costly and elegant engravings—a specially attractive feature of the paper. Distinctively a family paper, every number contains something to suit each member of the family. Able writers contribute to its columns. Its Contributions, Sabbath School Lessons, Stories, Illustrations, Talks with Correspondents, Editorials, Outlook, and Items, are of general and permanent interest.

Price only $2.50 a year, postage paid. Single copies six cents. Address 150 Nassau street, New York.

How shall we regain our losses is the question thought over by many in these times. Take our advice and remit a small amount to Alex. Frothingham & Co. brokers, 12 Wall street, New York, who by their judicious investments have relieved hundreds from pressing need. Send for their *Financial Report*, sent free.

LOCAL MATTERS

—:o:—

A Card.

There seems to be quite an excitement among our merchants, AND WHY? Reports are going the "rounds" that ALL INSURANCE COMPANIES doing business in this city—except one—contain in their policies "THE REMOVAL CLAUSE," which is "in case of the removal of property from a building, in which it is in danger, with designs of preserving it, the company pays a proportion of the actual damage incurred by such removal PRO RATA as the sum insured bears to the whole value of the stock." Now BEAR IN MIND that companies whose policies contain NO "REMOVAL OR PRO RATA CLAUSE," ARE NOT LEGALLY LIABLE TO PAY ANY SORT OF CLAIMS FOR DAMAGE BY REMOVAL, as your policy only covers loss or damage by fire—NOT BY REMOVAL. This should be remembered, as objections are sometimes made to our policies, on account of the "Pro rata Clause," by persons who do not understand this fact. You will readily see that the policy THAT PROVIDES for payment of pro rata damages in case of removal, when no damage from fire is sustained, is JUST SO MUCH MORE VALUABLE than one containing no such provisions, as is the advantage derived by the claimant from the contribution that may be realized under it GREATER than though he were compelled to bear the entire loss himself. The pro rata clause is not applied in any case, if any portion of the insured property is damaged by fire or water before its arrival. And we would state that in our experience in the insurance business we have never taken advantage of the removal clause, but have paid all damages in full and satisfactory to the assured. This misunderstanding has caused some parties to denounce all companies—except one—as SWINDLES, when in fact their policies are worth more. We continue to issue solid and reliable indemnity to assured. Issue policies promptly, at as low rates as possible, and transact all business on principles of commercial honor. **LOWELL & RIPLEY.**

Mrs. Sarah A. Elliott,

Authoress of "Mrs. Elliott's Housewife," Oxford, N. C. writes: I was among the first that used the "London Hair Color Restorer" in this section, and recommended it to M A & C A Santos, Norfolk, Va., as the most beautiful hair dresser and preserver I had ever seen. I was advised by an eminent physician to use it. Since doing so, it has proved so satisfactory in restoring and beautifying my hair, as well as strengthening my eyesight, that I have recommended it to the druggists here in Oxford, Raleigh, and a great many of my friends, and believe I have from what others say, caused it to have a wide and extended sale, and deservedly so, as it certainly is the most cleanly and effective hair restorer now before the American people. The "London Hair Color Restorer" can be obtained at all the leading druggists at 75 cents a bottle, or $4 for six bottles. jy30deodwly-4

NEW ADVERTISEMENTS.

It having been widely advertised under the caption of

"America Ahead in Spool Cotton,"

that the Jury on Cotton textiles, yarns and threads, at the Paris Exposition, decreed a Gold Medal and Grand Prize to the Willimantic Linen Company for "Spool Cotton especially adapted for use on Sewing Machines," over all the great thread manufactures of the world, we owe it as a duty to the public and to Messrs. J. & P. Coats to announce that

No Grand Prizes were decreed at Paris for Spool Cotton.

We are advised by cable of the following awards;

J. & P. COATS, GOLD MEDAL.

Willimantic Linen Co., Silver Medal.

And we claim for the winners of the First Prize that, as they have established in Rhode Island the largest Spool Cotton Mills in the United States, where their Spool Cotton is manufactured through every process from the raw cotton to the finished spool, AMERICA, as represented by Messrs. J. & P. COATS, is still AHEAD IN SPOOL COTTON.

A GOLD MEDAL

has been awarded at the Paris Exhibition of 1878 to

CLARK'S

O. N. T.

Best SIX-CORD SPOOL COTTON. It is celebrated for being STRONG, ELASTIC, and of UNIFORM STRENGTH. It has been awarded MEDALS at the great Expositions, from the first at Paris, in 1855, to the Centennial at Philadelphia in 1876. In this country CLARK'S O. N. T. SPOOL COTTON is widely known in all sections for its Superior Excellence in Machine and Hand Sewing. Their Mills at Newark, N J, and Paisley, Scotland, are the largest and most complete in the world. The entire process of manufacture is conducted under the most complete and careful supervision, and they claim for their American production at least an equal merit to that produced in Paisley Mills. As

NO GRAND PRIZES were awarded at **Paris for SPOOL Cotton,**

they are glad to announce to the American Public that they have been awarded a **GOLD MEDAL** being the highest award given for Six-Cord Spool Cotton.

SAFETY WITH **SAFETY LAMP.** | **DANGER** WITH **COMMON LAMP.**

The picture on the right fairly illustrates one of the many accidents daily happening with common lamps. No family using the ordinary Kerosene lamp is safe against such accidents. The picture on the left shows the different result when the AUTOMATIC SAFETY LAMP is used. No father or mother should risk the lives of their children by using any other. It saves life and prevents accident by fire to person or property Sold by dealers everywhere. Send for circular
